SCHOOLBELLPRO
RELIABLE & EASY TO USE SCHOOL BELL SYSTEM

V2

# EA60 / EA120 CONNECTION GUIDE

SchoolBellPro V2 integration wiring

## INSTALLATION NOTES

1. Wire the “Bell 1” relay and connect the USB-C-to-jack cable from Audio to the amplifier AUX input as a backup.
2. When Silence Alarms is enabled, no music will play through the AUX input. The school can switch to relay bells, which override Silence Alarms.
3. For installations with more than one EA60 / EA120, wire the amplifiers in repeater mode in accordance with the EA60 / EA120 manual.
